MELMAC KINCHTRY ANN 23E

OAK LANE KINCHTRY ANN 6X

We originally purchased the Kinchtry Ann family from Richard and Mary Tanner back in the Futurity back in 2010. Since then they have been a very solid cow family for us that excel in the maternal qualities we breed for. The dam of 14M has 3 other daughters, with her first daughter selling in the 2019 Bluewater sale to Kevin and Charlene Elliot. We have 2 daughters of 23E retained, including a full sister to 14M. Otherwise, she is the type of female that we wouldn't normally part with. We expect 14M to develop into prolific maternal contributor and would be a great addition to any program. Halter broke and shown in 4H.
